

Protect. Enhance. Outperform.

Durex® PROTECTIVE COATINGS **COLOUR GUIDE**

DURAbond
TECHNICAL COATINGS

Standard Colours

Durex® Protective Coatings

Durex® Epoxy, Polyurethane and Acrylic-hybrid resin based coatings can be colour tinted to meet your exact needs using the latest in computerized colour dispensing technology.

Note: Substrate type and porosity, finishing technique and lighting may affect the final coating colour. Safety (SF) and Signal colours are subject to additional surcharge.

The printed samples represent the actual finish colours as closely as possible. However, colour appearance may vary by texture, size, and shape of area. Lighting, method of application, exposure to heat and light and age may affect the appearance of the colour chips. Always request a textured sample before finalizing an order. Custom Colour Matching is available. Ask your Durabond representative for more information.
