

Durex® Pool Marble

Protective Marbelite Overlay System

NEW

Reliable, heavy-duty overlay system engineered for unmatched durability

Our advanced acrylic-modified cementitious coating is designed to withstand the toughest conditions, delivering long-lasting performance and exceptional protection. Ideal for submerged surfaces like interior finish concrete in pools, it ensures a flawless, resilient finish that stands up to water exposure while enhancing safety.

IDEAL USE

- **Perfect for Swimming Pool Interiors:** Provides superior protection for concrete finishes, ensuring long-lasting durability against chlorine and water exposure.
- **Ideal for Water Features:** Designed to enhance and safeguard water fountains and any surface in constant contact with water.
- **Versatile for Any Setting:** A top choice for both residential and commercial applications, offering beauty and performance in every environment.
- **Built for Continuous Water Contact:** Specially formulated to thrive in wet conditions, delivering reliable protection and an impeccable finish.

FEATURES

- **Safety You Can Trust:** Features a reliable anti-slip finish, ensuring a secure and safe environment for everyone.
- **Effortless Maintenance:** Designed to be re-coatable and repairable, making upkeep simple and stress-free.
- **Stronger Over Time:** Gains strength when submerged, delivering a finish that only gets better with use.
- **Stay Spotless:** Low dirt pick-up ensures your surfaces maintain their pristine appearance with minimal effort.
- **Simple Cleaning, Anytime:** Easy to clean and can be acid-washed for a thorough refresh, keeping your pool looking like new.
- **Chlorine-Resistant Toughness:** Built to withstand harsh pool chemicals, providing long-lasting protection and peace of mind.
