What is Durex® Granite?

Durex® Granite is a high quality architectural finish inspired by nature. Coming from the Durex® New Generation finishes line, Durex® Granite is formulated with natural multi-coloured decorative aggregates in a high-quality clear resin to yield a finish reminiscent of cut granite and stone.

Why use Durex® Granite?

Outstanding aesthetics. Durex® Granite delivers a unique, high-end finish that truly brings buildings to life. Whether you are building a multi-storey complex or putting the finishing touches on your dream home, look to Durex® Granite to set your building apart.

Where to use Durex® Granite?

Durex® Granite is the finishing touch of a wall assembly that has been thoroughly engineered, stringently tested and approved by independent laboratories to give you a cladding that has been proven to perform in harsh environments all over the world. Whether going directly over a surface or as part of a moisture managed Durex® Insulated Wall System, contact your Durabond Representative or visit www.durabond.com to discover the Durex® Wall System advantage.
