Durabond Products Limited Unveils Innovative Solutions at 2025 Interior Design Show

Toronto, Ontario – January 13, 2025 – Durabond Products Limited, a leader in high-quality construction materials, is pleased to announce the launch of two groundbreaking products at the upcoming 2025 Interior Design Show (IDS) in Toronto.

Introducing Dur-A-Comfort Ergonomic Flooring System

The Dur-A-Comfort Ergonomic Flooring System is a high-performance, polyurethane-based solution designed to provide unparalleled comfort and durability in high-traffic areas. Its user-centric design makes it ideal for environments such as hospitals, laboratories, hallways, lobbies, and dry process areas. Key features include:

- **Sound Dampening:** Reduces noise levels, creating a quieter environment.
- **Anti-Microbial Properties:** Promotes hygiene by inhibiting bacterial growth.
- **Chemical Resistance:** Withstands exposure to various chemicals, ensuring longevity.
- **Flexibility and Durability:** Offers resilience underfoot while maintaining structural integrity.
- **Seamless and Hygienic Finish:** Ensures easy cleaning and sterilization, essential for medical facilities.

Dur-A-Comfort is available in multiple thickness levels to suit specific project requirements and budgets.

Introducing Cementec Microcement

The Cementec Microcement offers a sleek, dust-free cement finish with exceptional durability, suitable for both interior and exterior walls. This versatile coating is perfect for creating seamless, modern surfaces in various settings, including:

- **Bathrooms and Kitchens:** Provides waterproof and easy-to-clean surfaces.
- **Living Areas:** Adds an industrial aesthetic to walls and ceilings.

Microcement is applied in a thin layer, allowing it to bond over existing surfaces without the need for demolition, making it a cost-effective and time-saving solution. Its high resistance to wear and ease of maintenance make it an excellent choice for both residential and commercial projects.

Availability and Ordering Information

Both products are now available for order, with shipping options across Canada. Interested parties are encouraged to visit durabond.com to download digital brochures, safety data sheets, and technical specifications. Orders can be placed by phone or email through our order desks. For custom solutions or large quantity orders, our team of sales representatives is ready to assist.

About Durabond Products Limited

Durabond Products Limited has a longstanding reputation for delivering high-quality construction products, supported by extensive testing and a commitment to customer service. Our products are engineered to meet diverse requirements, ensuring performance and durability in every application. Over the years, the outstanding quality of Durex Architectural Coatings has been proven in installations totaling millions of square meters. Our sales team, experts in the field of construction products, is dedicated to assisting customers in selecting and applying the most effective and economical products available to meet the requirements of even the most stringent applications.

Note: This press release contains forward-looking statements that are subject to change. Please refer to our website for the most current information.

Cementec

Ready-to-use microcement system

IDEAL FOR

Interior walls and floors exposed to traffic and residential use

FEATURES

Provides a smooth and monolithic aesthetic

Ease of application

Seamless and hygienic Finish

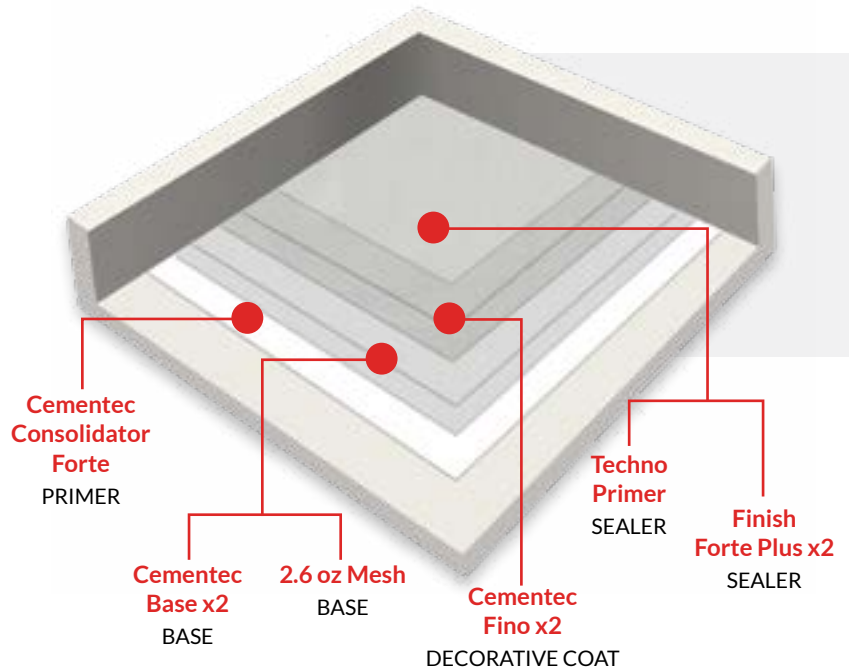

Easy-to-clean and sterilise

Low maintenance cost

Can be applied on almost any type of support, tiles, marble, self-levelling, plaster

COLOUR AVAILABILITY

Tinted (Any Colour)

Durex® Dur-A-Comfort ERGO SD

Ergonomic, sound absorbing, polyurethane system (6 mm)

DESCRIPTION

Extra shock absorbing via 4mm thick absorbing layer for additional comfort and sound dampening

IDEAL FOR

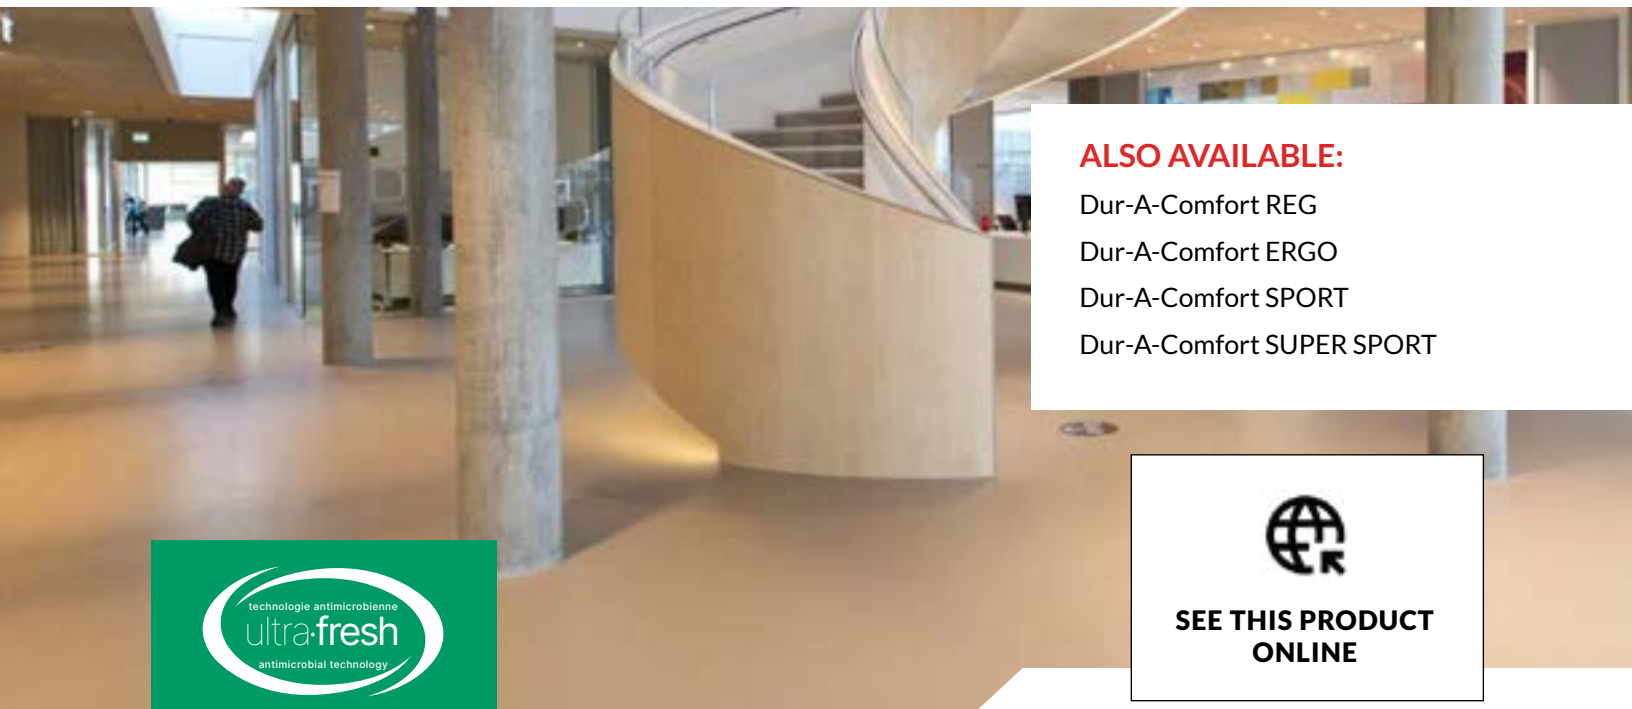

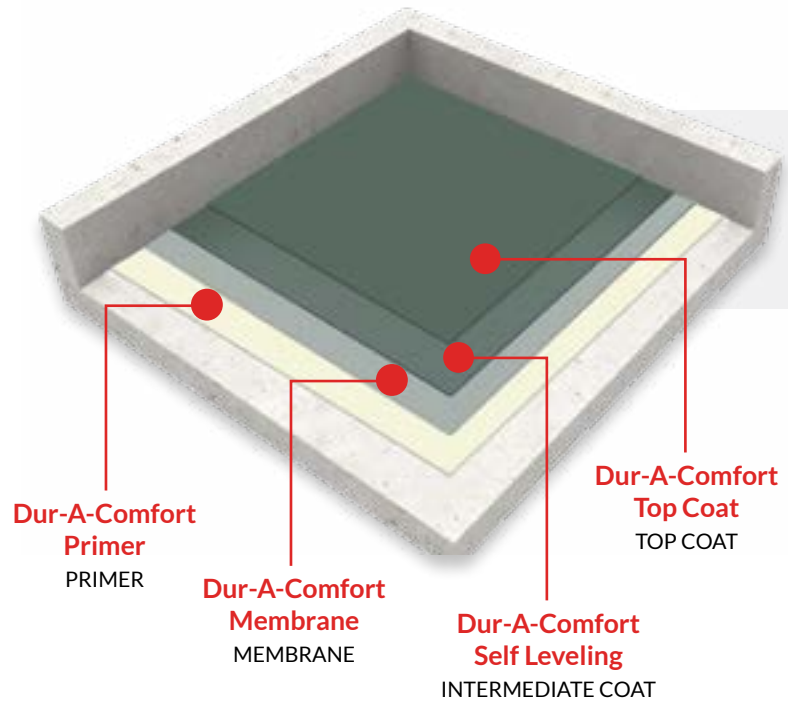

Laboratories and hospitals
Normal dry process areas

FEATURES

- Extra sound and shock absorbing
- Resist 80°C water temperatures
- High abrasion resistance
- Seamless and hygienic finish
- Easy-to-clean and sterilise
- Low maintenance cost
- Low odour during installation

COLOUR AVAILABILITY

- Tinted (any colour)
- Chip flakes

ALSO AVAILABLE:

- Dur-A-Comfort REG
- Dur-A-Comfort ERGO
- Dur-A-Comfort SPORT
- Dur-A-Comfort SUPER SPORT

Durex® ACR Limestone

Natural stone finish system

BASE:
Durex® EPS Base
(for exterior only)

FIRST LAYER:
Durex® ACR Limestone +
Durex® Fibreglass Mesh 2.6oz or 4.3oz

FINISH LAYER:
Durex® ACR Limestone cures to a natural stone finish

NEW

Durex® ACR Limestone natural stone finish system

Durex® ACR Limestone is a two-component polymer-based cementitious base coat consisting of a water-based acrylic liquid component Cast Bond, mixed with the dry component. Durex® ACR Limestone mix utilizes advanced polymer technology combining the strength and toughness of polymer-modified cement with the flexibility of synthetics.

IDEAL USE

Durex® ACR Limestone provides a natural stone finish to interior and exterior walls. It is also a breathable and water resistant decorative element that can be easily applied to any project.

FEATURES

Superior adhesion to various inorganic substrates

Combines the strength of cement with the flexibility of synthetics

Designed to allow minor movements in the substrate without causing cracking in the base coat

Excellent job site quality control

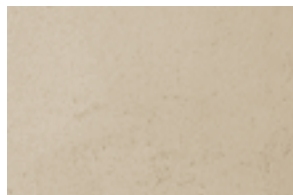

Breathable coating; allows water vapour within the wall system to evaporate

Durex® Architectural Coatings

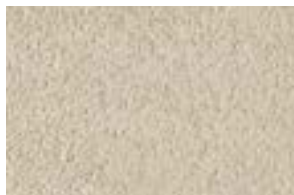

Durex® Artisan Architectural Finishes represents a range of aesthetic finishes that are enhanced by the artistry of the installer

Artisan*

SANDSTONE

A very fine finish which gives a limestone appearance for a sharp, smooth, stone look

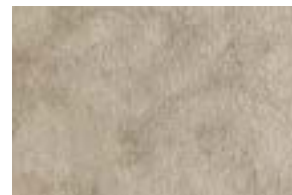

RASATO

Fine, smooth finish for a uniform, classic texture

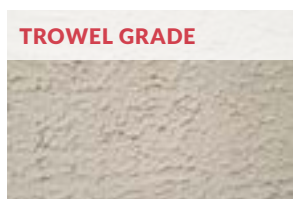

RUSTICO

Medium finish offering a unique texture with a rustic look and feel

ANTICO GLAZE

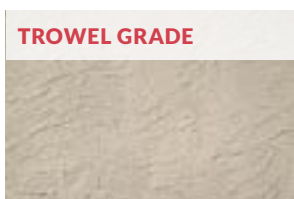

Translucent glaze that simulates a natural aging effect, for use over any texture

TROWEL GRADE

PULL OFF

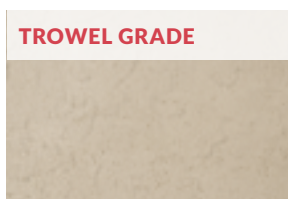

Classic, old english, high build, pull off style finish

TROWEL GRADE

FREESTYLE

Free-hand applied, coarse finish, styled by the Installer

TROWEL GRADE

KNOCK DOWN FINE

Traditional, high build, knocked down, textured finish
